

READY TO RECLAIM YOUR LIFE?

FROM OUR CEO

Matt Lopez, Founder & CEO

I relocated to Colorado in 2011 after graduating with a degree in entrepreneurship and small business management from Northeastern University in Boston, Massachusetts.

I've seen firsthand the devastating effects of addiction as 2 of my grandparents suffered from alcoholism and 3 of my cousins struggled with substance abuse. I feel passionately about making holistic treatment available to as many people as possible in my community. I'm an avid skier, golfer, adventurer, and sports enthusiast. I'm also a dog-dad to 2 rescue pups.

I'd love to hear from you.

ABOUT US

Continuum Recovery Center of Colorado is a Denver-based outpatient treatment center. We specialize in distinctive and holistic drug and alcohol addiction recovery programs, delivered with love, understanding, and compassion. We meet you where you're at and offer support, education, and a path back to wholeness for you and your loved ones. Let us help you heal from the disease of addiction and reclaim your best life: active, vibrant, and purpose driven.

“ I can definitely say that they offer the best drug rehabilitation services in Denver. They customize their plans and included special therapies which helped me heal and recover faster. Thank you Continuum
- Eric S.
